Everyone deserves a secure retirement. The fact that less than half of Connecticut workers have an employer sponsored retirement plan, that stagnant wages mean workers are less and less able to afford the high contribution limits and expensive fees of private retirement savings plans, and that 53% of American workers 30 and older are "at risk" to have insufficient assets for retirement when they reach the age of 65 means we need to solve a problem.

I support SB 249 "Retirement for All". We create stronger communities when we solutions to our problems are for the greater good. This is one of them. Please let me know your opinion.
